Dear Examiner:

RESPONSE TO RESTRICTION REQUIREMENT

In response to the Restriction Requirement dated July 3, 2006, the Applicant provisionally elects, with traverse, Group I, comprising claims 1-17 for further prosecution in this application.

The Restriction Requirement is respectfully traversed because Group II claims a (switching) node of a communications network that can fulfill the tasks of both the node as part of a layered architectural environment, e.g. as MSC-Server, and the node as part of a non-layered architectural environment, e.g. as MSC/VLR. The Group I claims include the limitations of the MSC-Server and MSC/VLR in dependent claims 10 and 11. The method claims include the MSC and MSC/VLR limitations.
